Zero Emissions? Yes we can.

How? With **RIOHydrogen**. A unique, patented program, developed over the last decade, which allows you to upgrade your entire freight locomotive inventory over a period of years. And without buying new trains. *Starting today.*

RIOHydrogen incorporates our proprietary **EFC** hydrogen technology embedded in three products, and implemented in two principal stages. Stage 1: With **EFC Model 1** and **EFC Model 2**, you can reduce your CO2 emissions by up to 60%. *Immediately.* Stage 2: Using EFC Model 3, you can schedule the move to actual Zero CO2 emissions over a period of years. Our entire program can be structured to be cost neutral.

With **RIOHydrogen**, you move away from fossil fuels, eliminate immediately the risk of climate change pressures, and ensure your long term future. Let us help you **PROTECT YOUR FUTURE** and, at the same time, **PROTECT THE WORLD**.

GREEN HYDROGEN : THE ONLY SCALABLE FUEL THAT IS 100% CARBON EMISSIONS FREE
AN ENVIRONMENTAL IMPERATIVE FOR FREIGHT TRAINS
